SHASHANK SETH

Senior Product Designer • AI Product Builder • 0→1 Products • Design Systems • UX Strategy • Adventure

www.shashankux.in ↗ work.shnk@gmail.com ↗ +91 7447697117

BIO

Senior Product Designer combining **product strategy**, exceptional **visual craft**, and a deep-rooted **adventure mindset** to **build impactful digital experiences at scale.**

CURRENTLY EXPLORING

AI Agents • Robotics • Computer Vision • 3D Printing • Sports-tech • Physical Product Design

SELECTED IMPACT

- Designed products used by **75M+ users globally**
- Reduced AI quiz creation time from 17 minutes to **3 minutes**
- Increased user retention by 15%
- Improved **first-attempt KYC approval** from 68% to 85%
- Reduced customer wait-time complaints by 30%
- **Reduced engineering testing time by 10%** through a unified design system

TOOLS I USE

Design
Figma · FigJam · Framer · Adobe CC

AI
Claude · ChatGPT · Gemini

Development
HTML · CSS · GitHub · AI (claude code/ codex/ gemini)

Product
Notion · Jira · Calendar · Notes

Hardware
Arduino · ESP32 (Micro-controllers)

PROFESSIONAL EXPERIENCE

Senior Product Designer & AI Product Builder — Feb 2024 - Present

Leading product design for **AI-powered products from strategy to launch.**

- Led end-to-end product design across multiple AI-first products.
- **Partnered with founders, product managers, and engineers** to shape product strategy and prioritization.
- Designed products including Earnnest, AstralYogi, Gooofy, and Toast.

Product Designer, Wayground (formerly Quizizz) — Oct 22 – Feb 2024

Designed AI-powered learning experiences **used by 75M+ users worldwide.** Led **end-to-end product design** from discovery to launch.

- Led design for Quizizz AI, Paper Mode, and Avatars.
- Increased **new user adoption across multiple geographies** including Australia, Indonesia, Brazil, and UK.
- Increased classroom engagement by 40% through **new gamified experiences.**
- Partnered with PMs, engineers, and researchers to define product direction.

Product Designer, GetMega — Dec 2021 – Aug 2022

Led product design for LMS, Wallet, and KYC experiences **serving 500K+ users.**

- Owned product strategy and UX across critical user journeys.
- Reduced game drop-off by 8%.
- Improved KYC approval from 68% → 85%.
- Built a cross-platform design system.

Software Design Intern , NVIDIA — Dec 2019 – Jul 2020

Designed data-intensive internal software for GPU diagnostics and engineering workflows.

- **Collaborated with engineering** teams to **simplify complex GPU workflows.**
- Designed **internal GPU diagnostics software.**
- Improved engineering efficiency through research and rapid prototyping.

EDUCATION

MIT Institute of Design, Pune
Bachelor of Design, 2020
User Experience Design & Research
